Subject: REQUESTED ACTION: 9/11 COMMISSION - Verification of Names of Involved Employees

All,

While I realize that just about everything is "hot" to somebody, this request from AAT-200 is certainly so. As you are aware, all federal agencies (not just the FAA) have been publicly criticized for alleged bureaucratic sloth for failure to timely produce information for the national 9/11 Commission. Therefore, FAA in general, and each of us in particular, is under the gun to turn around this information request as quickly as possible.

Prior such requests from the Commission have been worked by Maria Siewert of this office; however, she is out of the office today and I'd like to get Eastern Region's answer to HQ by COB today. Thus, please commit the necessary attention to this request and return your data to me by e-mail.

Note: you will notice a few discrepancies in the listing. I've caught a few misplaced or incorrectly-spelled names. As you scrub the data, please note whatever you find as part of your response.

Thank you.

Bob Whitworth

Subject: NATIONAL COMMISSION OF TERRORIST ATTACKS UPON THE UNITED STATES

Bertrand R. Ouellette, Bob Whitworth, and Dorothy Davis;

We have been requested to verify that the following individuals work at the following facilities, and that the information provided below is correct. We realize that you have gone through a similar exercise, however, additional names have been added and the "Commission" is asking for confirmation. In advance, thank you for your patience and to press the matter; we need your response as soon as possible (sorry).

1. There was a "20/20" report (do not know when it aired) in which two controllers were interviewed (Kurt Applegate [New York ARTCC] and Don Geoffroy [Boston ARTCC] that we do not have as a participant with the September 11, 2001 events (as identified in "Request Number 5c" below), do you have any information on their participation, if any.

2. Also;

**Request Number 5c:** "Please supply a list of names for the following individuals: ATC controllers and supervisors involved in tracking or communicating with the hijacked planes on 9/11."

**Response:** The following names have been identified as those individuals that either had radio communications with the subject aircraft or closely worked and assisted those that did. We have provided the names only; the position(s) each individual worked can be identified in the respective Air Traffic Aircraft Accident Package...
